

Observed distribution of similarity between coding genes

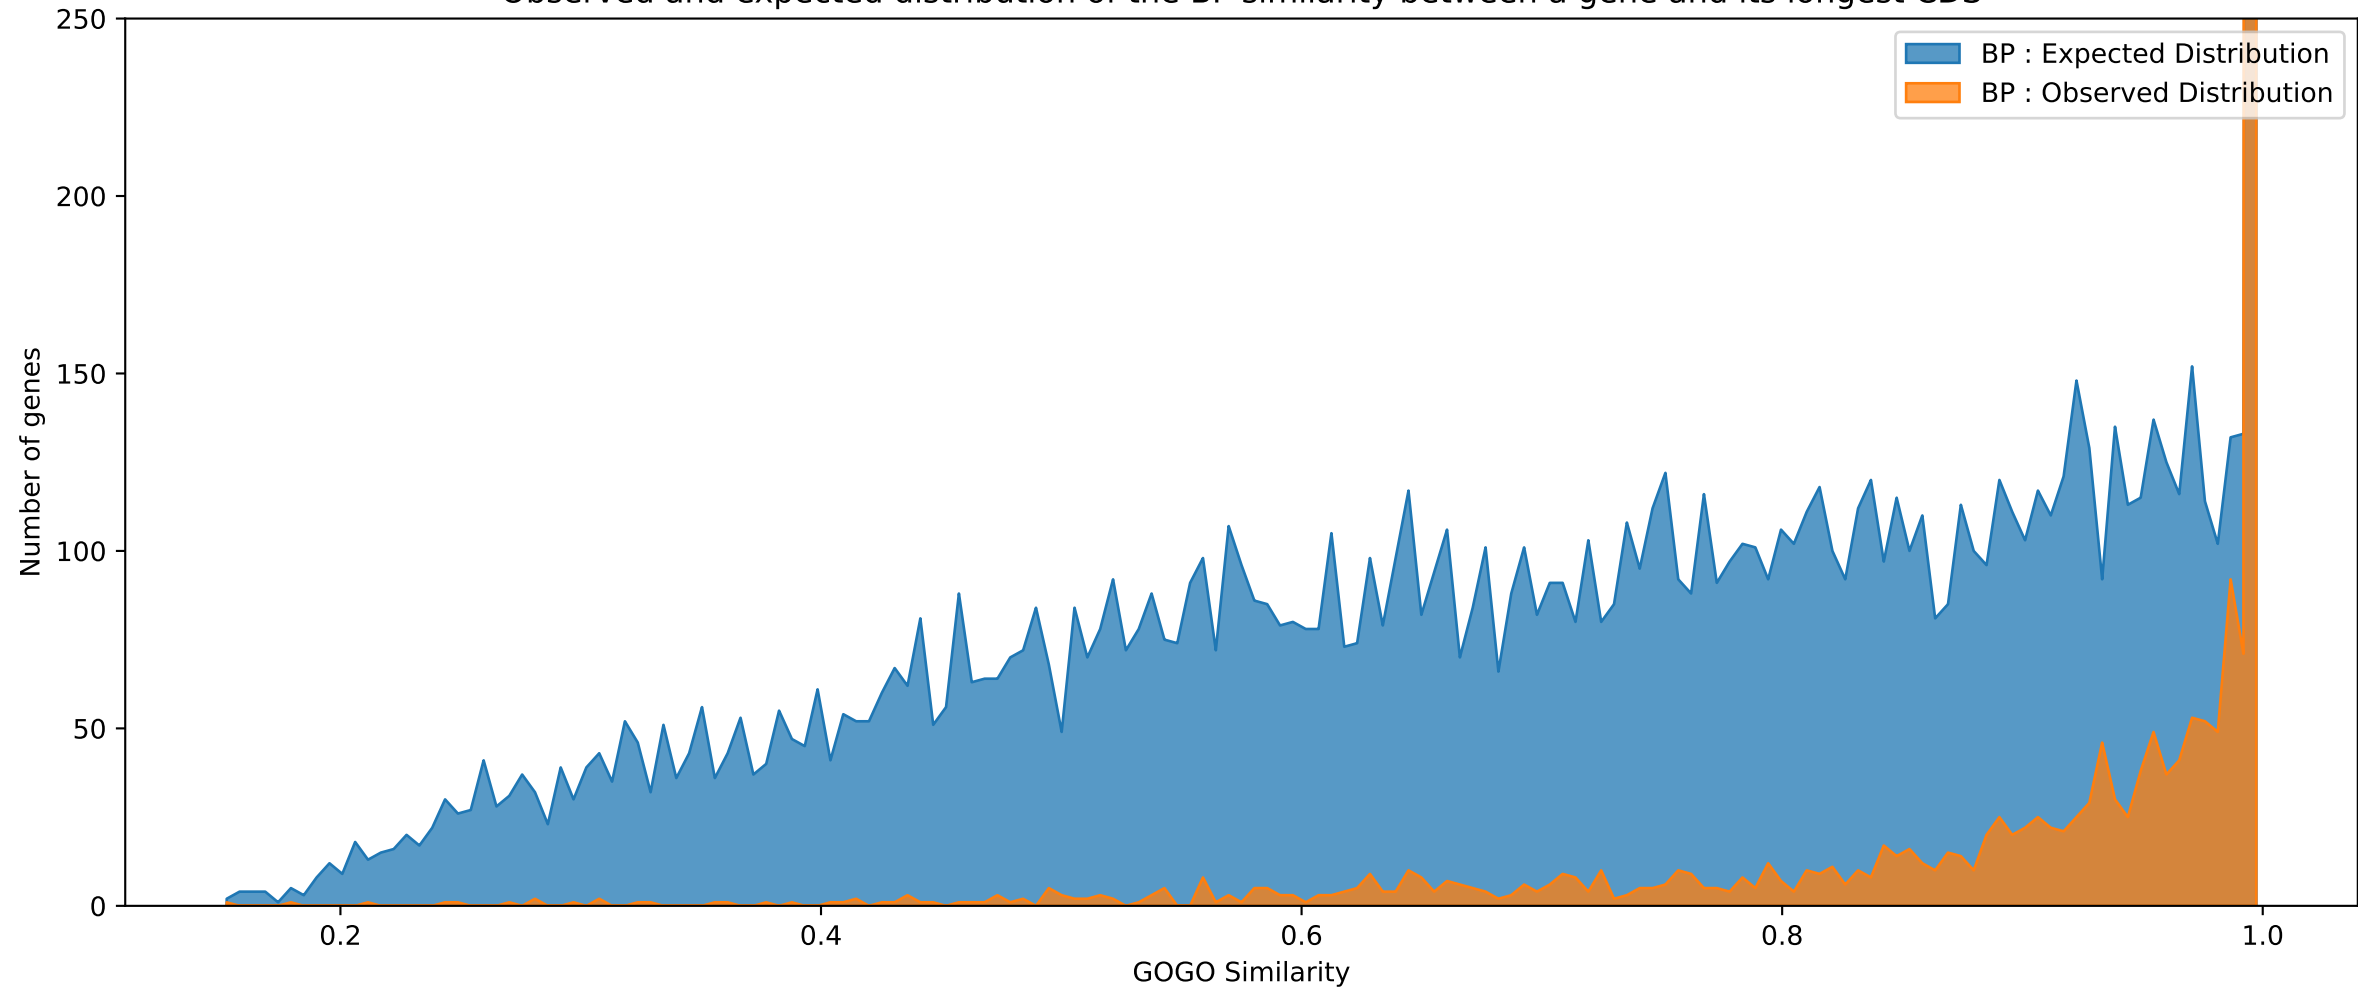

Number of genes

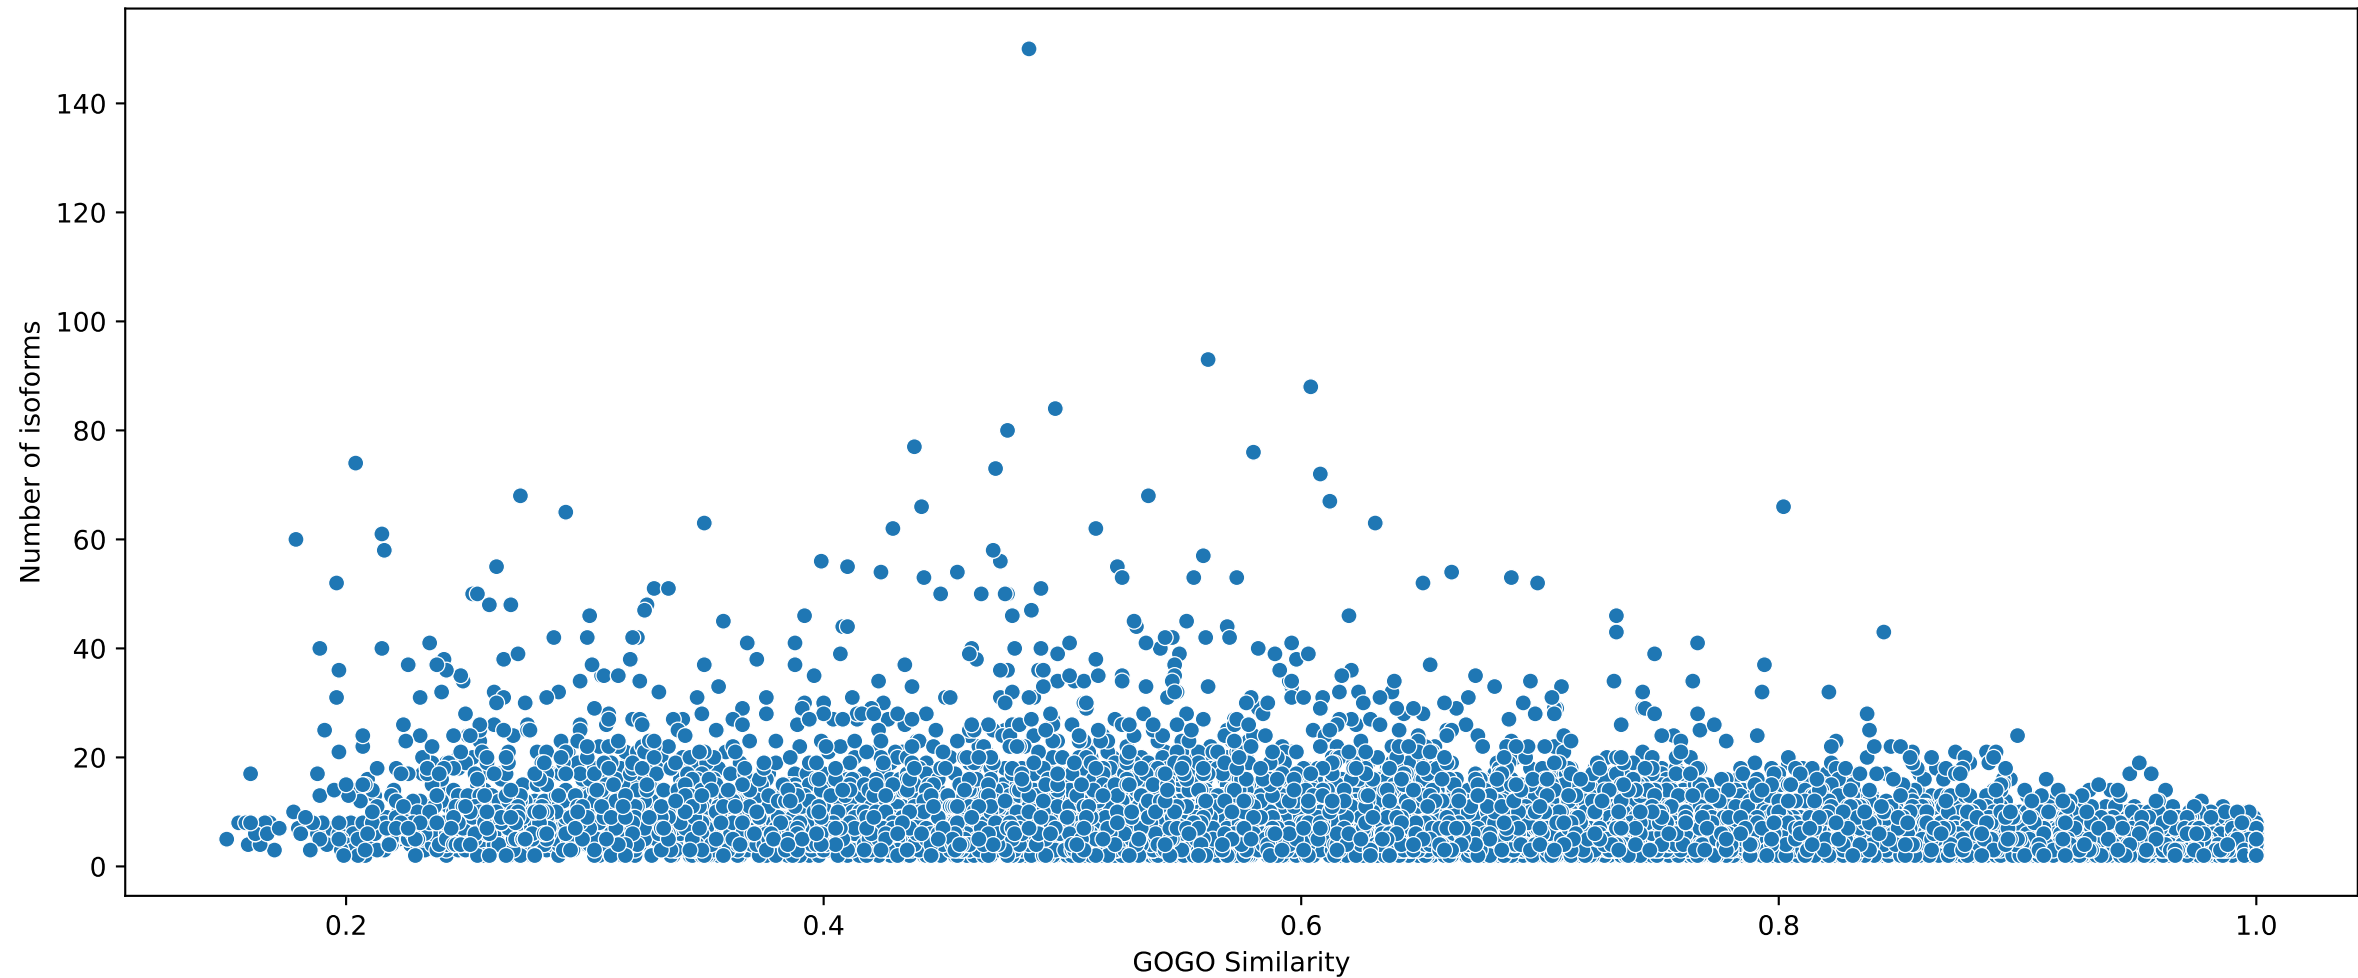

Expected distribution of similarity between coding genes

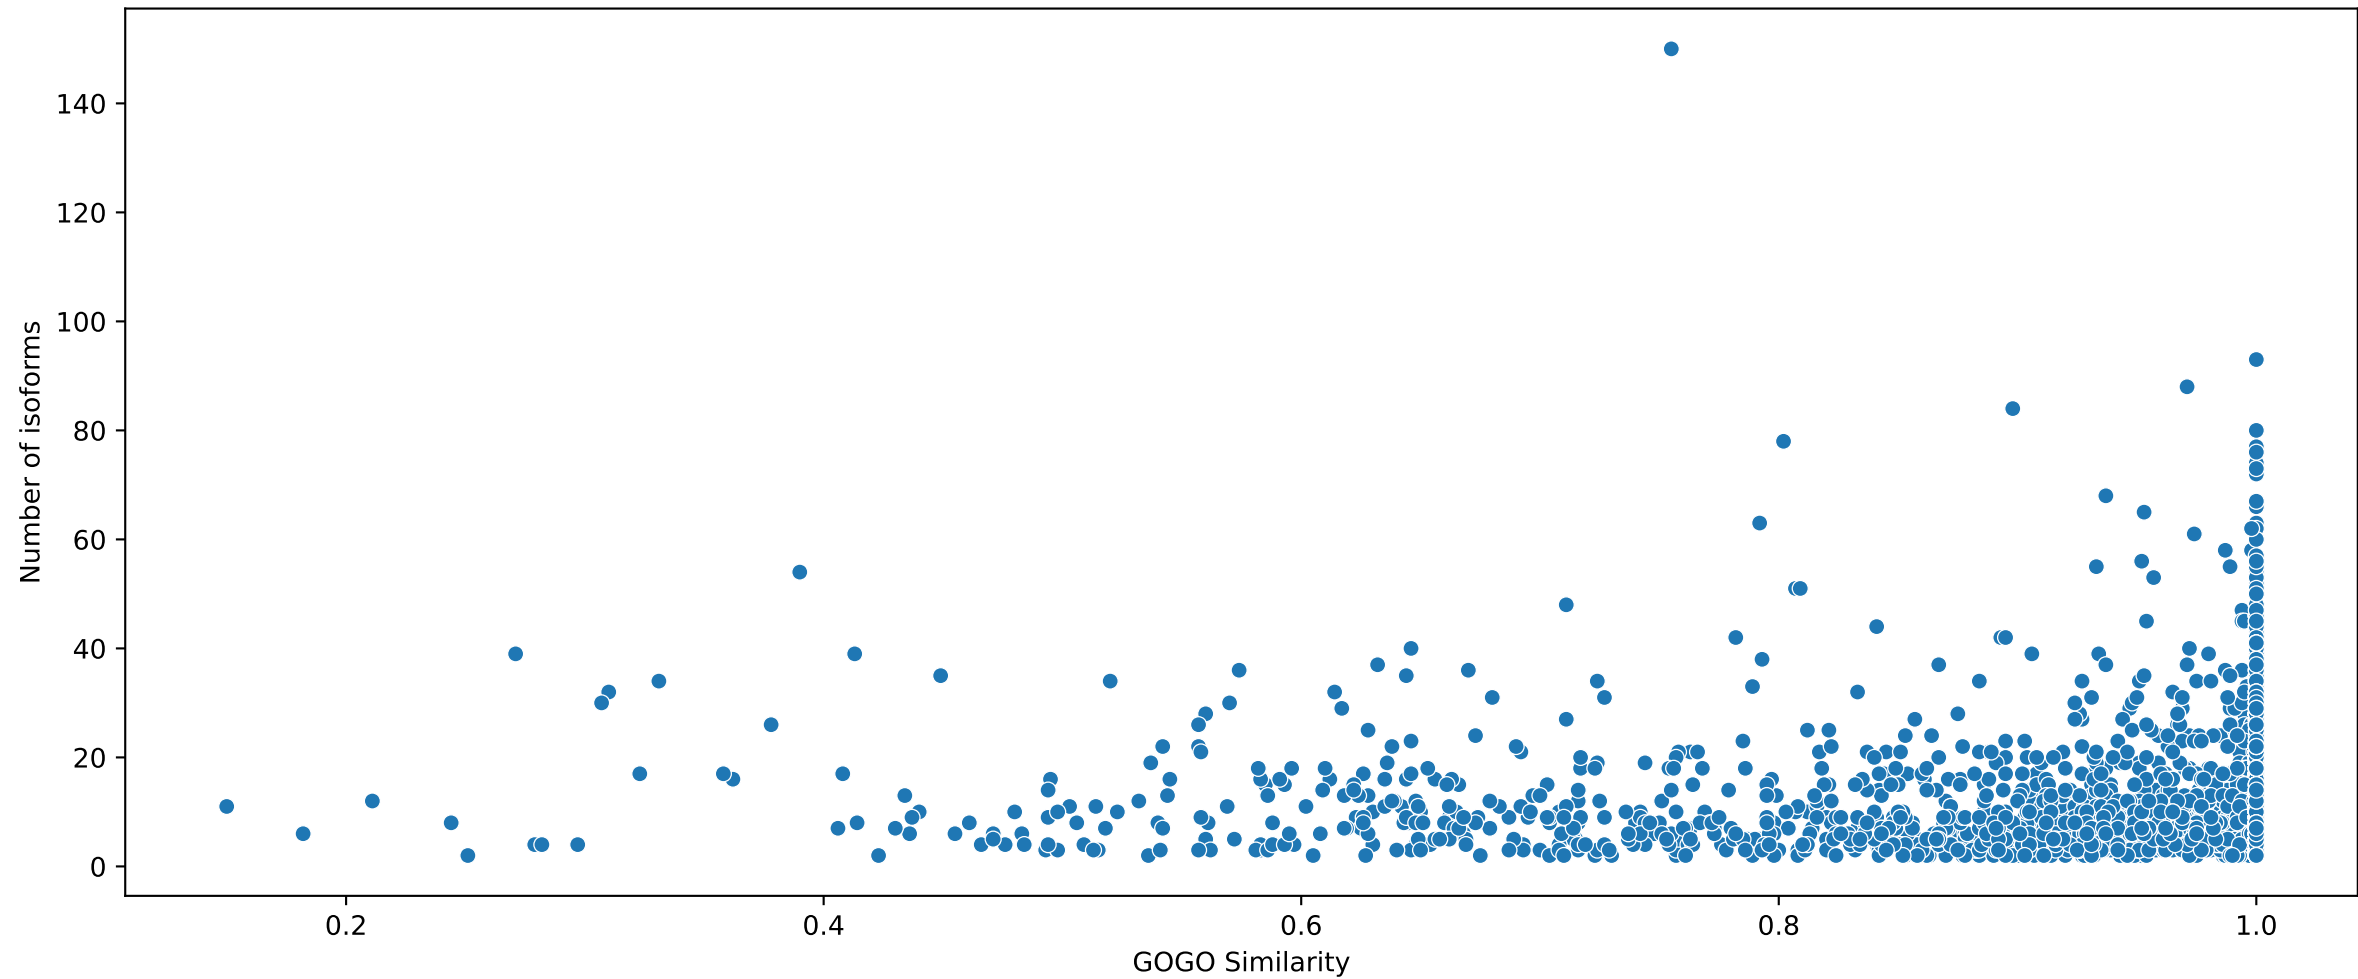

Observed and expected distribution of the BP similarity between a gene and its longest CDS

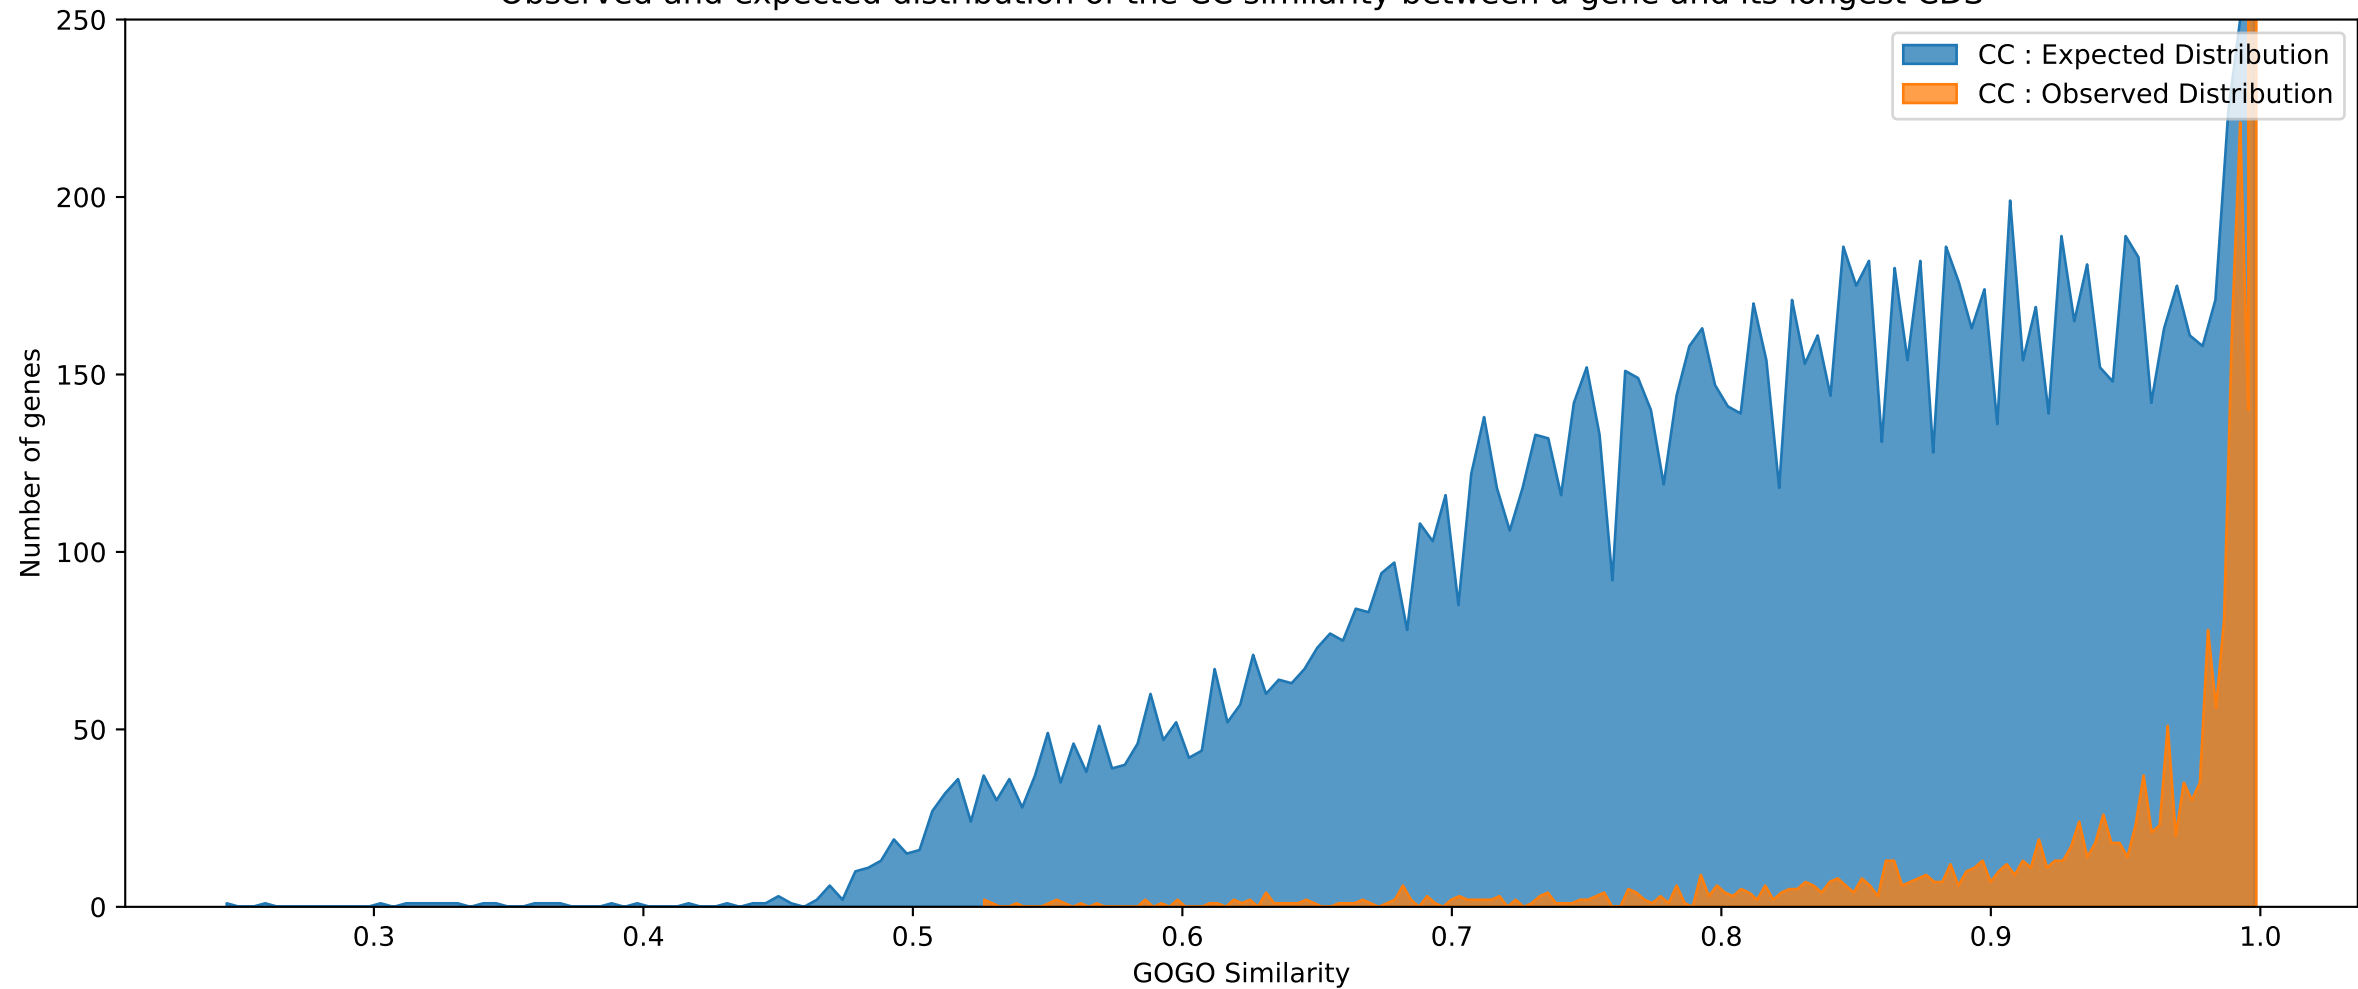

Number of isoform by BP similarity of genes (expected)

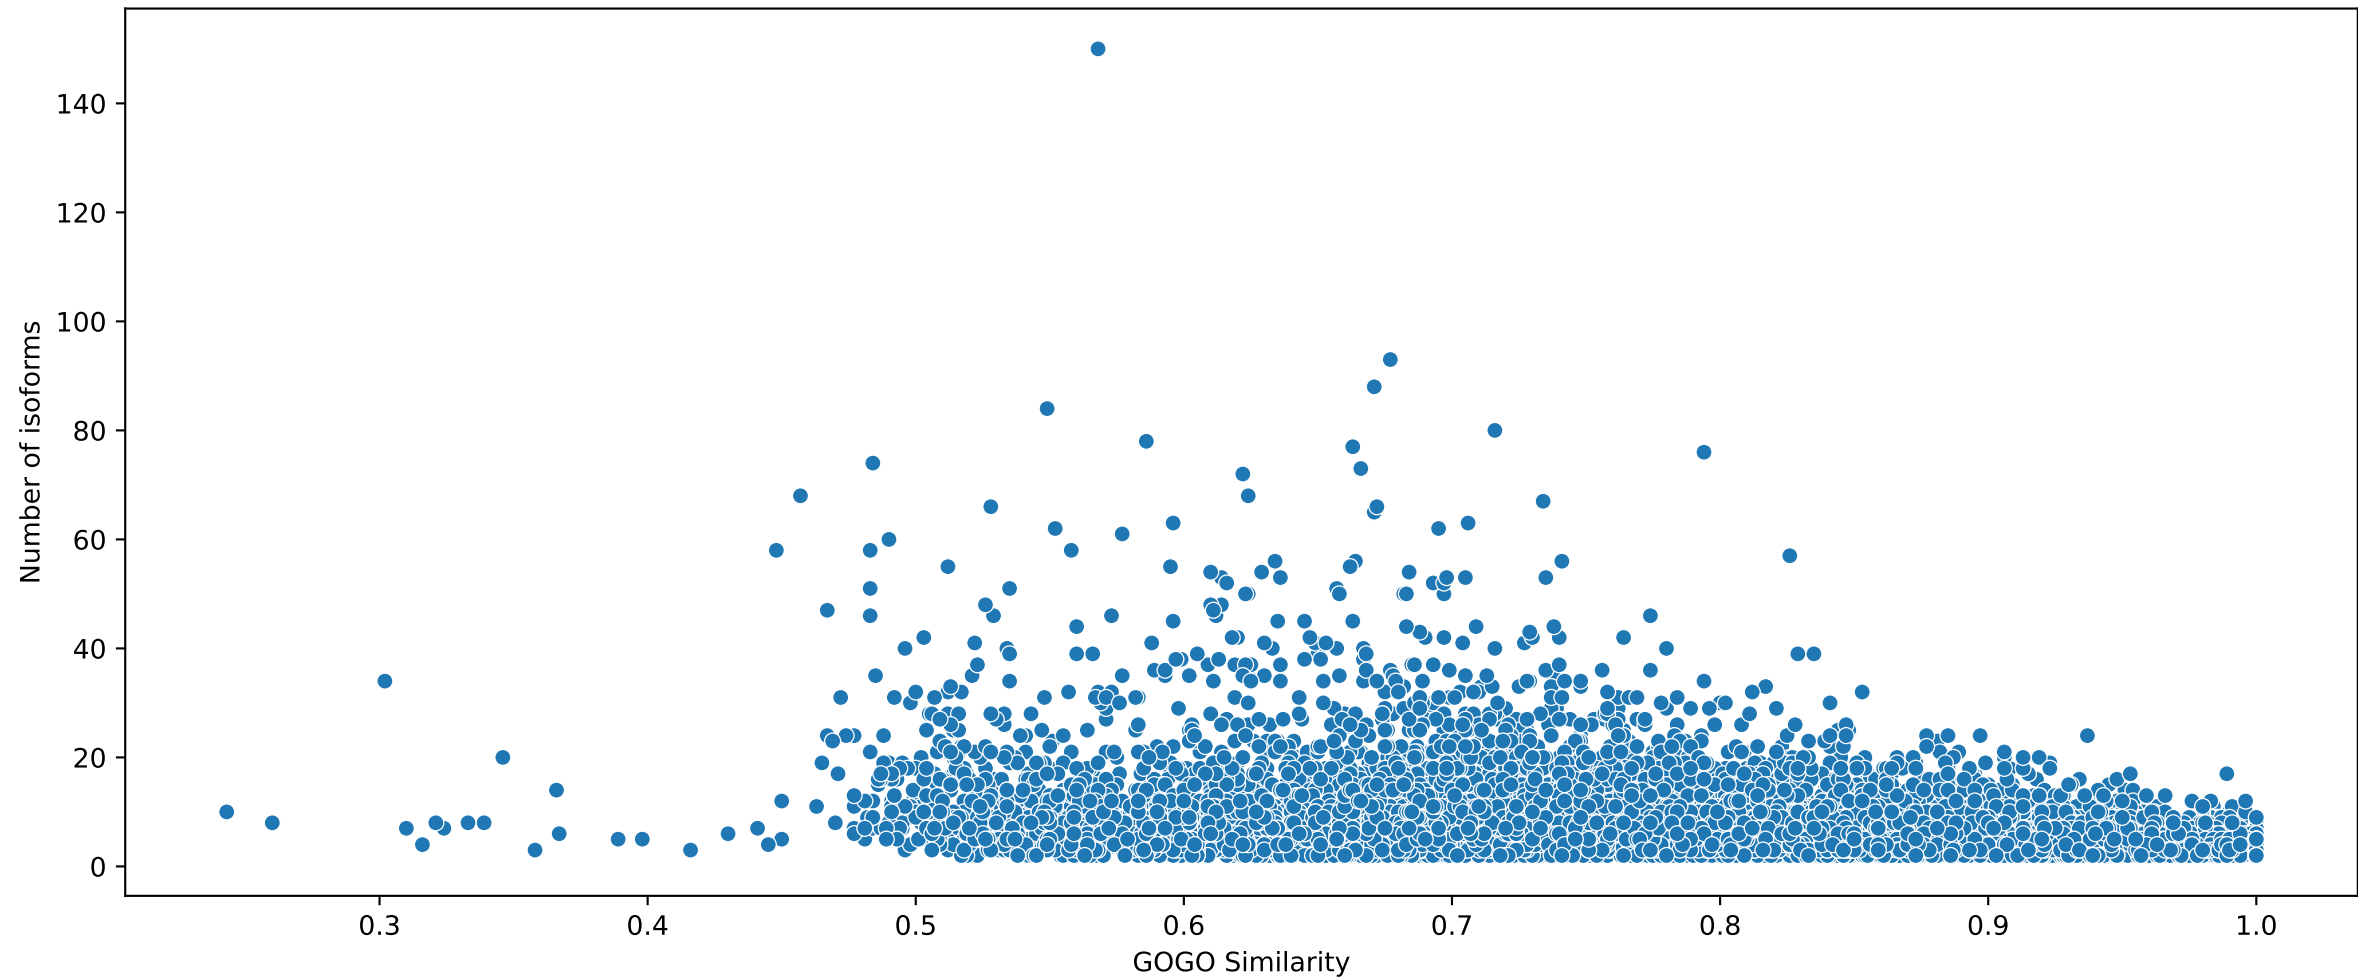

Number of isoform by BP similarity of genes (observed)

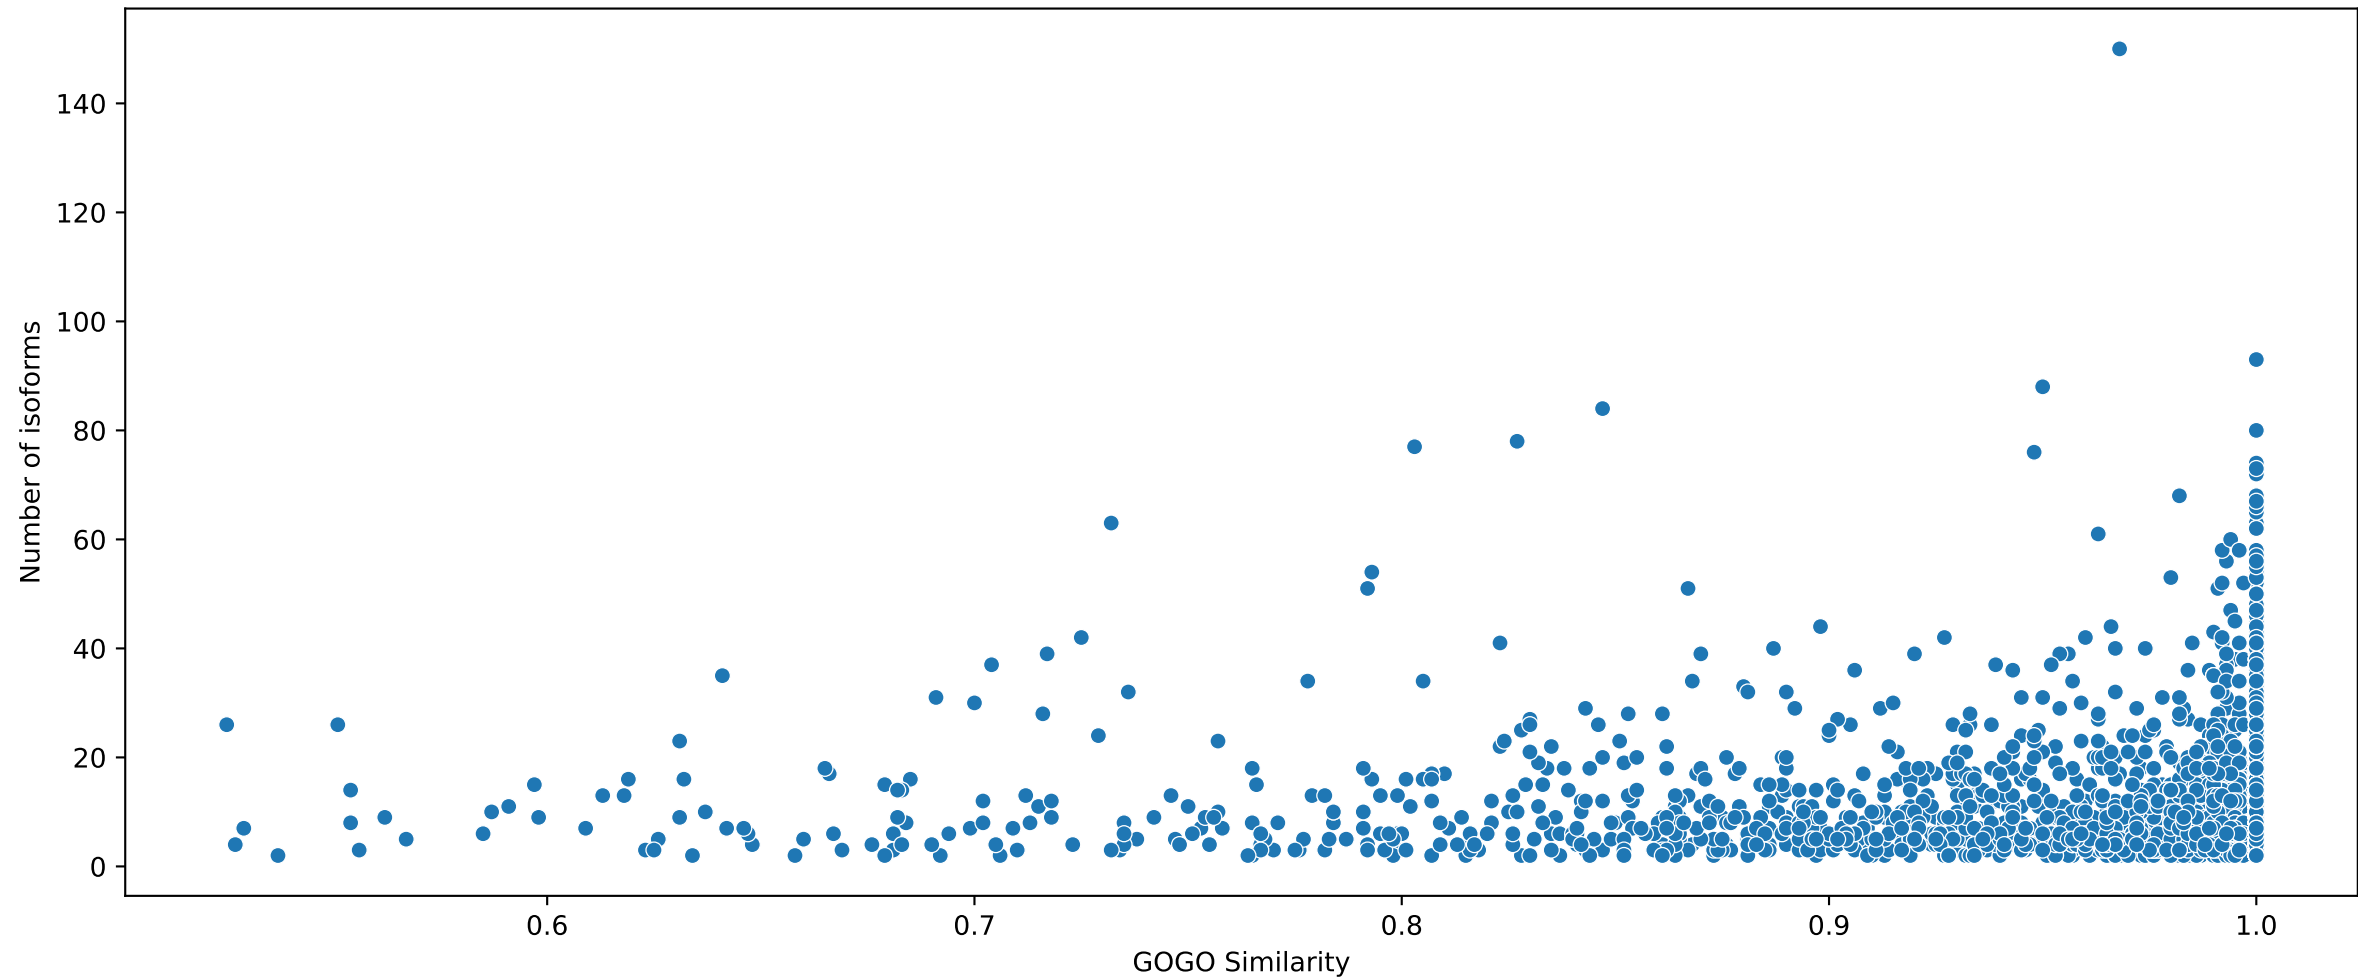

Observed and expected distribution of the CC similarity between a gene and its longest CDS

Number of isoform by CC similarity of genes (expected)

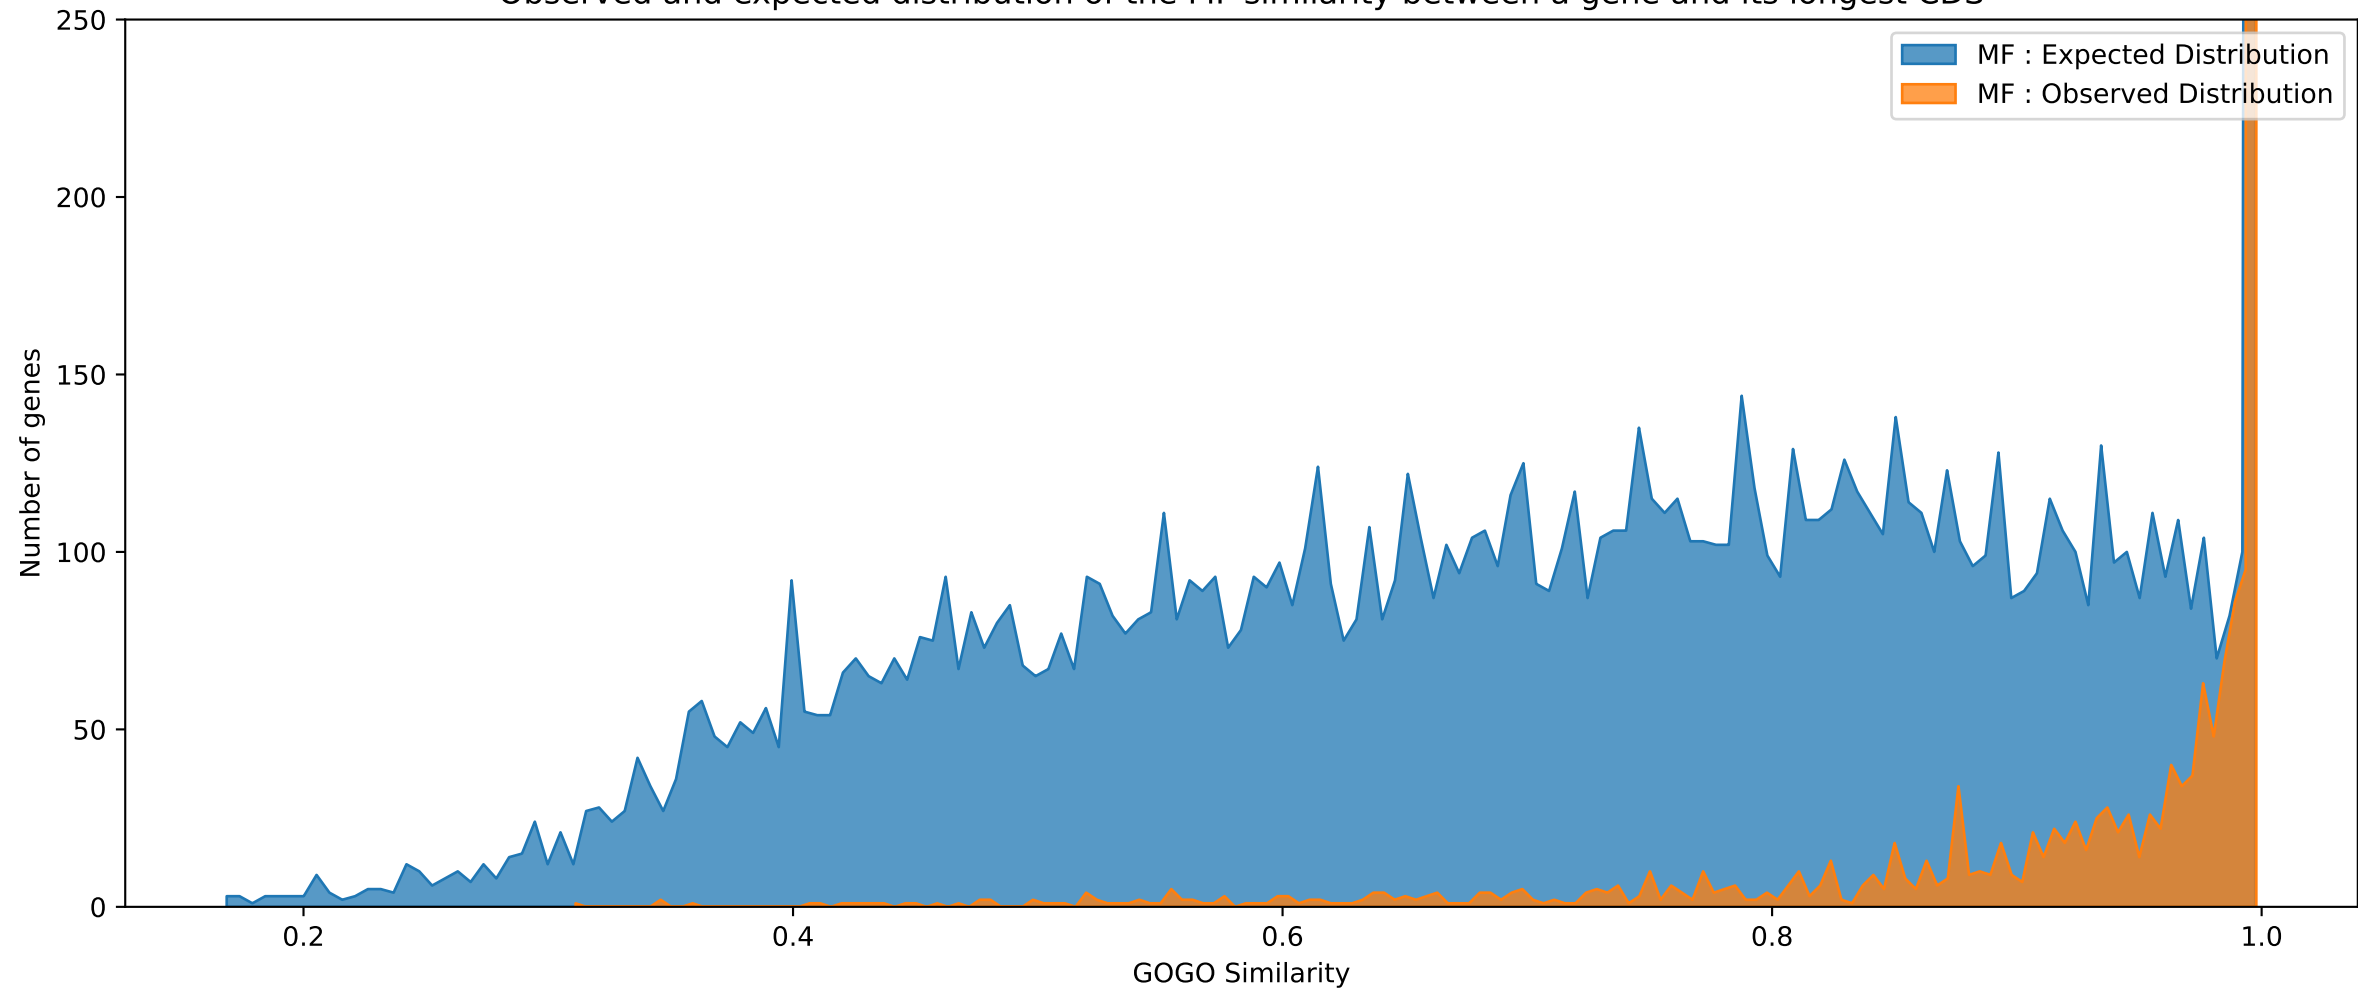

Number of isoform by CC similarity of genes (observed)

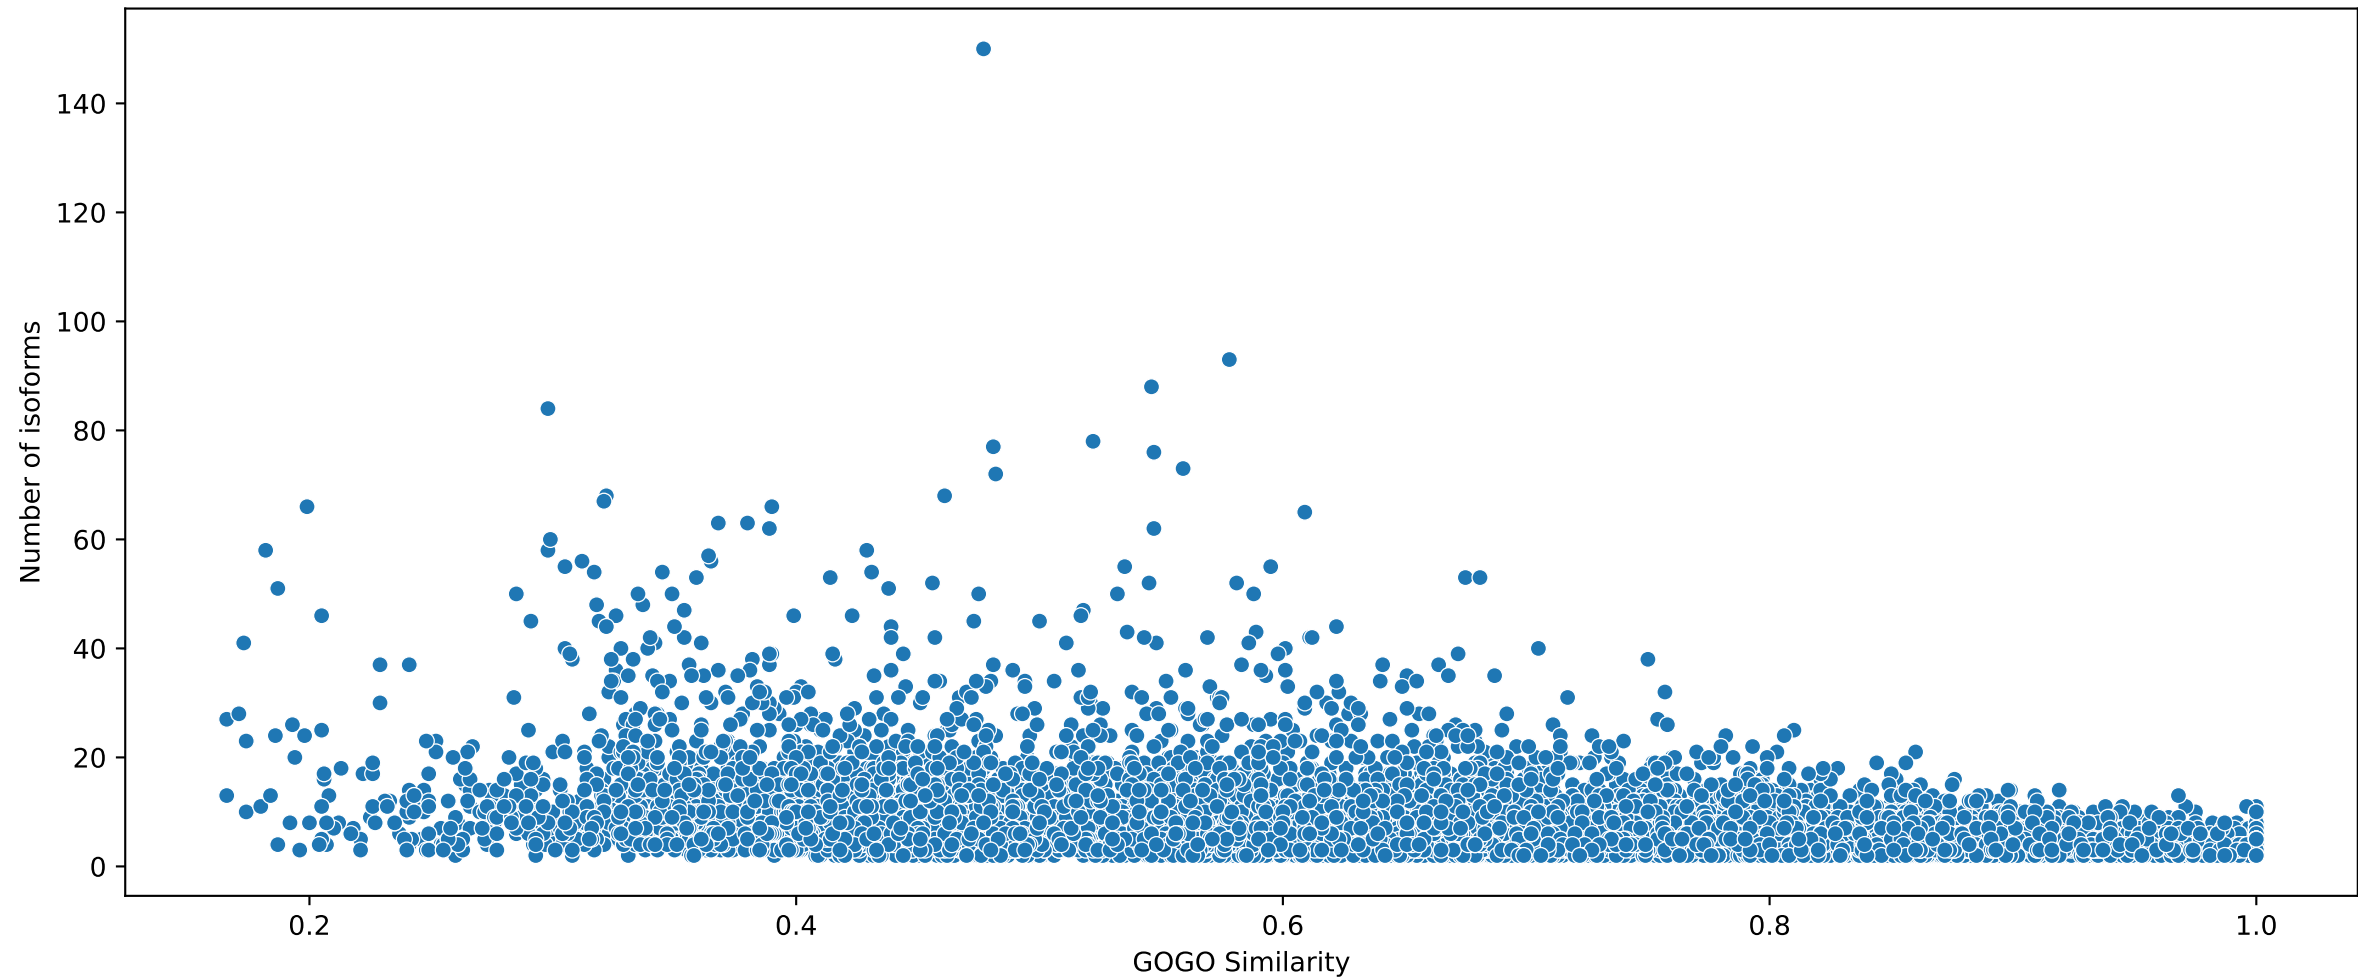

Observed and expected distribution of the MF similarity between a gene and its longest CDS

Number of isoform by MF similarity of genes (expected)

Number of isoform by MF similarity of genes (observed)
